
Practical AI Solutions LLC · Coverage Audit

Montana RASS Coverage Audit

Cross-checks the current mt-alcohol + mt-alcohol-offsale content against every Montana statutory requirement. Updated 2026-05-08.

ARM 42.13.907(1) — Curriculum content checklist

Requirement	Coverage	Module(s)	Notes
(a) Effects of alcohol on the body, including behavioral cues and absorption rates	✅ Full	mt-alcohol M1; mt-alcohol-offsale M1	Pharmacology, BAC math, factors that change absorption (sex/weight/food/medication/rate), tolerance vs. impairment
(b) Standard drink sizes and equivalency	✅ Full	M1 (both tracks)	12oz beer / 5oz wine / 1.5oz spirits + the "watch the pour" callout for craft beer / hard seltzer / cocktails
(c) Methods to identify underage or intoxicated persons and prevent sales thereto	✅ Full	M2 + M3 + M4 (on-prem); M1 + M2 + M3 (off-prem)	Behavioral + physical cues for intoxic; full ID inspection sequence; "actually, apparently, or obviously intoxicated" standard
(d) Strategies used by underage persons to obtain alcohol	✅ Full	M3 + M4 (on-prem); M2 + M3 (off-prem)	Borrowed ID, fake online ID, proxy buyer, shoulder-tap, distraction tactics, confidence tactic
(e) Acceptable forms of identification	⚠️ Text-only	M3 (both tracks)	All seven ARM 42.13.902 ID types listed in text. Image not yet generated (this is the media-pipeline gap — see below)
(f) Actions that can be taken to prevent an alcohol-related incident from occurring	✅ Full	M2 (intervention ladder); M5 (dram shop framework)	Intervention ladder (slow / switch / food / refuse / document); refusal scripts
(g) Maintenance of documentation that may affect liability, including an incident log and house policies	✅ Adequate	M2 (refusal documentation callout); M5 (documentation in dram-shop context)	Refusal-documentation callout in M2 explicitly mentions house policies + incident log + how it protects under MCA 27-1-710. Could be expanded but meets the ARM standard.

Requirement	Coverage	Module(s)	Notes
(h) Techniques for denying alcohol sales	 Full	M2 (refusal scripts + scenarios); M3 (refuse on bad ID); M4 (refuse proxy buyer)	Three refusal scripts + the "law's on me" reframing; module-3 scenario practices the refuse-the-fake-ID flow

MCA 16-4-1006(1) — Statutory content requirements

Requirement	Coverage	Module(s)	Notes
(a) Effects of alcohol on the human body	✓ Full	M1	Same as ARM (a)
(b) Information on criminal, civil, and administrative penalties tied to MCA 27-1-710 (dram shop) and Title 16	✓ Full	M5	Three liability types (criminal / civil / administrative); MCA 27-1-710 three-trigger framework + \$250K caps + 180-day notice + 2-year SOL; ARM 42.13.101 progressive penalty schedule covered in M4; MCA 16-6-305 personal misdemeanor in M4
(c) Procedures for checking identification, INCLUDING government-certified digital ID cards (HB 196)	✓ Full	M3	Full digital-ID check sequence; falsifying digital ID is a separate offense per MCA 16-6-305 (HB 196 amendment)
(d) Procedures for gathering proper documentation that may affect licensee liability	✓ Adequate	M2 + M5	Same as ARM (g)
(e) Skills training for handling difficult situations and evaluation techniques	✓ Full	M2 (intervention ladder, scenarios); M3 (DOB calc + ID red flags + scenario); M4 (proxy-buyer scenario); M5 (over-service scenario)	Five branching scenarios across the curriculum
(f) A final test	✓ Full	Final exam	40 questions from a 64-question pool / 80% pass / ARM 42.13.907 retake rule (on-prem); 25 from a 40-question pool / 80% pass / same retake rule (off-prem)
(g) Certificate of completion	✓ Full	Cert page	CRMT prefix, 3-year validity, "your Montana training credential" framing, fed to certsearch database

ARM 42.13.906(4) — Online program technical requirements

Requirement	Coverage	Notes
(a) Make the program available to the department in its online format	✓	Reviewer accounts created (<code>mt-reviewer@certready.org</code> + <code>mt-offsale-reviewer@certready.org</code>); Vercel preview URL ready
(b) Incorporate videos, scenarios, or games	✓	Scenarios, module-overview videos, module-overview podcasts, embedded infographics, quizzes, and Study Buddy are present for both tracks.
(c) Sample proof of training document	⚠ Live preview available; PDF pending	Reviewer credentials can open <code>/learn/mt-alcohol/certificate</code> ; render <code>sample-certificate.pdf</code> from the live cert page before formal submission
(d) The exam, its answers, and an explanation of how the combined exam score will be calculated	✓	<code>docs/submission/montana/scoring-methodology.md</code> covers the full config

Time floor (HB 157 / MCA 16-4-1006(2))

Requirement	Status
On-premises ≥ 120 minutes	✓ Total est_minutes = 125 (5 min buffer)
Off-premises ≥ 60 minutes	✓ Total est_minutes = 60 (exactly at floor)
LMS enforces time floor before exam unlocks	✓ Per-module timer + cumulative_seconds_on_content + exam-page redirect
Two distinct course tracks (HB 157 mandatory split)	✓ <code>mt-alcohol</code> + <code>mt-alcohol-offsale</code> are separate course rows / slugs / submissions

Submission package (ARM 42.13.906)

Item	Status
Cover letter	✓ docs/submission/montana/cover-letter.md
Curriculum outline mapped to ARM 42.13.907 + MCA 16-4-1006	✓ docs/submission/montana/curriculum-outline.md
Montana-specific training supplement (standalone PDF)	✓ docs/submission/montana/mt-supplement.md
LMS reviewer credentials	✓ docs/submission/montana/reviewer-credentials.md (accounts created in prod)
Sample certificate	⚠ Need to render the live cert page to PDF after smoke test
Final exam + answer key + scoring methodology	✓ docs/submission/montana/scoring-methodology.md + final-exam.json files
Completion-reporting workflow narrative	✓ docs/submission/montana/completion-reporting-workflow.md
Differentiator one-pager	✓ docs/submission/montana/differentiator-onepager.md

Gaps to address before submission

Mandatory before submission

1. **Render live cert page to PDF** for the sample certificate attachment. Sign in as `mt-reviewer@certready.org`, take + pass an exam, save the cert page as PDF.

Recommended before submission (not blocking but valuable)

2. **Optional Spanish recorded-MP3 polish.** English MP3s are present for all referenced chunks; Spanish audio support is already available through browser text-to-speech in the LMS audio player.
3. **Optional final media polish:** spot-check the generated infographics, videos, podcasts, and posters in the live reviewer page before formal submission.

The required acceptable-ID graphics, module-specific infographics, and NotebookLM overview videos/podcasts are now generated and referenced by the live course assets.

Nice-to-have (not blocking)

6. **House-policies + incident-log** could be expanded with a small section in M5 going beyond the M2 callout. Currently meets ARM (g) standard but a fuller treatment is more defensible if Kent asks about it.
7. **Citation-soft pass on exam questions:** question stems like "Under MCA 16-3-301(4)(b), ..." could be reworded to test understanding rather than recognition of citation numbers (the substance is in the answer options either way, so this is cosmetic).

Verdict

Text content meets every ARM 42.13.907(1) and MCA 16-4-1006(1) requirement. No content additions are blocking. The remaining gaps are media (images / audio / video) which the post-approval pipeline addresses.
