

mt-alcohol-offsale — citation index

Generated 2026-05-13 by `scripts/extract-citations-index.mjs` .

Purpose. Every statute, admin rule, and bill citation that appears in this course's content (module JSONs, exam pool, submission docs). Used as the source-of-truth list for the `state-course-onboarding` Phase 1 verified-citations gate AND for periodic statute-drift audits.

Status: auto-generated. Each citation needs a human-filled `Primary source URL` and `Verbatim operative-text quote` to graduate from "indexed" to "verified." Run `node scripts/extract-citations-index.mjs ${slug}` again any time module content changes; preserve verified rows manually if needed.

Total unique citations: 42 **Sources:** ARM, H., HB, MCA, SB

ARM citations (5)

Primary-source URL pattern: <https://mca.legmt.gov/bills/arm/{section}.html> (or rules.mt.gov; ESPer portal requires JS — fallback to PDF version of the title)
