

QA Report - Montana RASS SC-Style Stats Audit

Date: 2026-05-16 **Auditor:** Codex **Scope:** `mt-alcohol` , `mt-alcohol-offsale` , `/review/montana` , Montana submission packet, and the Kent pre-submission handoff.

Verdict

Kent first-contact email: GO, as a pre-submission review link, after Baptiste reviews the email draft. The live reviewer page and curriculum stats now match the current course config and primary-source dates.

Formal CARD submission: NOT YET. Remaining hard gates are live sample-certificate PDF, reviewer iPhone walk-through, production/migration/Stripe readiness, and re-rendered PDFs from the current source.

What I Fixed During This Audit

1. HB 196 effective date on `/review/montana`

- Fixed reviewer-page copy that implied HB 196 took effect January 1, 2026.
- Current source of truth: Montana DOR legislative lookback lists HB 196 effective October 1, 2025.
- Files: `app/src/app/(marketing)/review/montana/page.tsx:329` , `:486` , `:1058` .

2. Stale Montana final-exam stats

- Fixed packet/checklist language that still said "2 retakes" or on-prem pool 60.
- Current stats: on-prem = 40 questions from a 64-question pool; off-prem = 25 from a 40-question pool; 80% pass; ARM 42.13.907 retake rule with 70% threshold and no hard two-retake cap configured.
- Files: `docs/submission/montana/coverage-audit.md:27` , `docs/submission/montana/qa-gate.md:33` , `docs/submission/montana/research.md:128` .

3. Media status drift

- Fixed old packet wording saying videos and acceptable-ID images were still pending.

- Verified all JSON infographic refs resolve under `app/public/infographics/` .
- Verified all module overview video/podcast/poster files exist for both tracks.
- Files: `docs/submission/montana/coverage-audit.md:35` , `docs/submission/montana/qa-gate.md:91` , `:93` .

4. Audio wording

- Tightened public marketing copy so it describes audio support without making Spanish recorded MP3s a submission gate.
- Current status: EN MP3 refs resolve; Spanish audio support is available through browser TTS. Spanish recorded MP3s are optional polish.
- Files: `app/src/app/(marketing)/courses/mt-alcohol/page.tsx:27` , `:72` ;
`app/src/app/(marketing)/courses/mt-alcohol-offsale/page.tsx:32` ;
`docs/submission/montana/qa-gate.md:31` , `:95` , `:98` .

Primary-Source Checks

- MCA 16-4-1006 requires the core curriculum categories, final test, certificate, and two classes of training programs for on-premises and off-premises employees. Source: [Montana Code Annotated 16-4-1006](#).
- MCA 16-4-1005 requires completion within 60 days of hire and renewal every 3 years. Source: [Montana Code Annotated 16-4-1005](#).
- Montana DOR adoption notice says MAR Notice 2025-292.3 was effective March 7, 2026 and amended ARM 42.13.907 as proposed in the January 23, 2026 amended proposal notice. Source: [DOR adoption notice](#).
- The adopted proposal text sets on-prem minimum at 2 hours, off-prem minimum at 1 hour, 80% pass, final-only retake if first attempt is at least 70%, and full-program retake below 70%. Source: [MAR Notice 2025-292.2 PDF](#).
- Montana DOR legislative lookback confirms HB 157 effective January 1, 2026; HB 196 effective October 1, 2025; HB 211 effective January 1, 2026. Source: [DOR 2025 Legislative Lookback](#).

Automated Verification

Check	Result
<code>node scripts/submission-readiness.mjs</code>	MT-ALCOHOL: 0 RED, 0 YELLOW ; MT-ALCOHOL-OFFSALE: 0 RED, 0 YELLOW
Config/exam parity	On-prem config and exam both show 40 from 64, 80%, no max attempts; off-prem both show 25 from 40, 80%, no max attempts
<code>node scripts/test-reporting-isolation.mjs</code>	CLEAN - 7 checks passed, warnings only for skipped <code>module-overviews</code> and food-handler no reporting format
Media existence check	0 missing infographics; 0 missing overview videos/podcasts/posters
Audio asset check	0 missing EN MP3 refs; Spanish audio supported through browser TTS fallback
<code>cd app && npx tsc --noEmit</code>	Passed
<code>cd app && npm run build</code>	Passed; <code>/review/montana</code> , MT module routes, and MT exam routes compiled

Remaining Non-Blocking / Human Gates

- Render a real sample-certificate PDF from the live certificate page after a reviewer pass.
- Baptiste should do the final iPhone reviewer walk-through for both tracks.
- Treat Spanish recorded MP3s as optional post-approval polish; Spanish TTS already provides audio support for pre-submission review.
- Replace MT Stripe price placeholders and apply migrations before public launch/formal submission.
- If sending the formal CARD package later, re-render PDFs after any final copy/media change.
